Save Time with Therapy Track!

Therapy Track not only records and analyzes therapy units, service procedures, nonchargeable units and more – it does it fast!

Users log-in and quickly enter daily information. Based on customer requests, we recently rounded up some data on average log-in time. Here's what we found:

P.T. Inpatient:

Minimum entry time = 42 seconds (experienced staff member)
Maximum entry time = 5 mins, 10 seconds (new staff member, first week on job)
Average entry time = 1 min 32 seconds

O.T. Inpatient:

Minimum entry time = 51 seconds (experienced staff member)
Maximum entry time = 2 mins 30 seconds (PRN staff member)
Average entry time = 1 min 51 seconds

PTA/COTA Inpatient:

Minimum entry time = 35 seconds (experienced staff member)
Maximum entry time = 2 mins 22 seconds (PTA training a student user)
Average entry time = 1 min 22 seconds

P.T./ O.T. Outpatient:

Minimum entry time = 60 seconds (experienced staff member)
Maximum entry time = 3 mins 45 seconds (new employee)
Average entry time = 1 min 39 seconds

Overall Average/All Disciplines and All Settings:
96 seconds

How's that for quick?!

Therapy Track's motto is:

If you can't measure it, you can't reward it. If you can't reward it, you can't improve it.

Therapists spend less than 2 minutes a day using the system. And since Therapy Track is internet based, training is minimal – we've done all the work for you!

Setup of a new facility can take as little as one hour for a group – about 30 minutes for the facility, plus a few items to setup each user. Our support staff will walk you through the setup process. Most facilities can be up and running within a day or two!
