Therapy Track Newsletter, Issue 14: November 2005

Thank you!

We had a great time at the TPTA Annual Conference and Student Conclave, October 21-23 at the Marriott Waterways in the Woodlands, Texas.

Thanks to everyone who dropped by our booth to say "hello!"

Who Knew?

Recently, a Rehab Director of a hospital that uses Therapy Track told us about another fantastic reason to use Therapy Track. He said that **Therapy Track has reduced his department's no shows and lost visits by 3%!** The reason? Therapists in the department now try harder to communicate with their patients about appointments and same-day rescheduling, because if a patient is not treated as scheduled, it might prevent the therapist from reaching their individual productivity target.

We think it's just another great example of how the Therapy Track's **Power of Real Time Information** inspires therapy staff to claim more ownership and pride in their place in the department.

We love hearing feedback like this – so please drop us a line anytime at support@therapytrack.com.

Therapy Track's motto is:

If you can't measure it, you can't reward it. If you can't reward it, you can't improve it.

Therapy Track Products:
REAL TIME INFORMATION

Real Time Productivity
Real Time Staffing
Real Time Cost Control
