Coming Up...

Mark your calendar and plan to see us at the following events:

AARC International
 Respiratory Congress in
 Anaheim
 December 2008

AOTA Annual
 Conference & Expo
 in Houston
 April 2009

APTA Annual Confer-
 ence in Baltimore
 June 2009

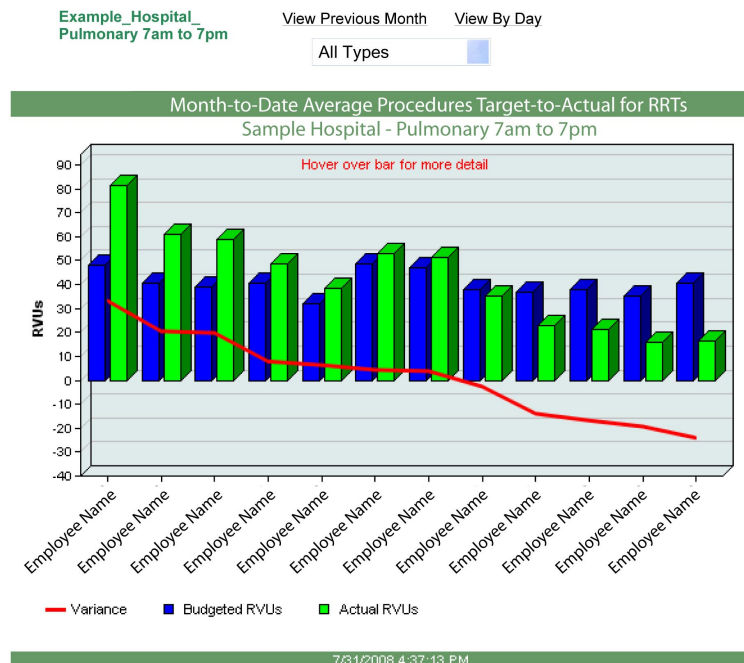

Therapy Track recently announced that we have expanded our software programs to include a new, full version Performance/Productivity program for Pulmonary/Cardiology/Sleep Lab departments in hospitals.

This expansion is an important milestone in Therapy Track's goal – to be a tool that enables all types of therapy departments in hospitals and clinics to reduce costs, increase efficiency and profitability, and enhance staff satisfaction while maintaining high quality patient care.

Therapy Track believes that a productive staff is a happy staff – and that this is true across all therapy departments. Our program allows directors to set and communicate specific targets and establish consistent expectations.

And just like the Therapy Track program that has been operating successfully in Physical, Occupational, Speech and Rehab Therapy departments, our new Pulmonary/Cardiology/Sleep Lab version provides daily and monthly goals, month-to-date tracking and daily email reports.

The chart at right is just one example of the 35 reports and charts available to directors. Each set of blue and green bars represents an RRT's month-to-date procedures comparing target (blue) to actual (green).

Therapy Track Now Used by 15 Types of Healthcare Professionals

With our new Pulmonary/Cardiology/Sleep Labs version, Therapy Track is now used by these fifteen types of healthcare professionals:

PT	PTA	CRT	Echo Techs
OT	COTA	RCP	LAT
SLP	RRT	Cardiology Techs (I, II, III)	RT
			Students

the power of real time information!
