### DID YOU KNOW?

You can catch up on past Remedies newsletters on our [website!](#)

Greetings!

Total Productivity Track just keeps growing! This month's Remedies announces the roll out of our Nursing Program.

We would appreciate it if you would take a moment to forward this email to someone in your hospital's nursing department who might benefit from this information. Simply use the "Forward" link at the bottom of this newsletter. Thank you!

### Happening Right Now -- See us at the 2009 THA Conference!

Therapy Track & Total Productivity Track are preferred vendors of the THA Solutions Group, and we're at the October 28th-29th THA Annual Meeting in Nashville. Come by booth #421 and say hello!

### Announcing TPT's Nursing Program! (Now Tracking More Ancillary Services than Ever!)

Nursing Program is an operational tool that provides real-time daily ratio information on reports like:

- Hours Per Patient Day and Cost Per Patient Day
- Daily Direct and Non-Direct Hours Worked
- Skill Mix of Departments
- Hours Spent on Orientation and Education

Our Nursing Program gives the director of nursing and administration unprecedented depth of information -- on a daily, month to date, monthly, quarterly and yearly basis -- so they can control expenses and create a more productive nursing department.

## ...BY THE WAY -- WE'RE GREEN!

It's not something that we talk about much, but the truth is -- Total Productivity Track is a *green* product!

We're online and communicate almost entirely by email rather than in print, which means that our environmental footprint is pretty small.

Plus, the amount of paper our clients use (printing reports, for example) is completely within their own control.

We feel pretty good about that! (Now let's all go hug a tree...)

that work for you every minute, 24 hours a day!

As always, please feel free to contact me directly with any questions or for more information about anything in this month's newsletter.

Sincerely,

A handwritten signature in black ink that reads "Richard D. Tinsley".
