Tips on Getting the Most out of Therapy Track!

Here are a few easy tips that will make Therapy Track an even more useful tool in your department:

1. Be sure to keep your **staff user list current** -- add new therapists to the program as soon as possible, and deactivate any personnel that is no longer a part of your department.
2. Review **departmental and individual targets** with your staff on a monthly basis.
3. Keep staff motivated with individual meetings to **review weekly and monthly productivity** performance -- trend reports, too!
4. **Be a superstar** in your hospital by giving your supervisor printed reports on how well your staff is performing and how you are monitoring your service costs.
5. Review the **staff mix** you use in completed treatments -- units or RVUs.

Therapy Track's motto is:

If you can't measure it, you can't reward it. If you can't reward it, you can't improve it.

Therapy Track Products are:
REAL TIME INFORMATION

Real Time Productivity
Real Time Staffing
Real Time Cost Control

FUTURE PRODUCTS

Start each day anew with Therapy Track!

"Before ending each day, take five minutes to put things in order so that you can start fresh the next day. When your life is cluttered with old, stale habits, relationships and situations, you prevent new and desirable things and people from showing up."
